This work has been selected by
scholars as being culturally
important, and is part of the
knowledge base of civilization
as we know it. This work was
reproduced from the original
artifact, and remains as true to
the original work as possible.
Therefore, you will see the
original copyright references,
library stamps (as most of
these works have been housed
in our most important libraries
around the world), and other
notations in the work. This
work is in the public domain in
the United States of America,
and possibly other nations.
Within the United States, you
may freely copy and distribute
this work, as no entity

(individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

L'art Monumental de la France Romane Oct 24 2020 The most important of Eliane Vergnolle's publications focus on the study of Romanesque art in France. In particular, she has

concentrated on the period during which this type of art was born and has investigated the processes which, from the

beginning of the 11th century onwards, led to the renewal of monumental sculpture in several regions. Having investigated previous methods of analysis, she has proposed a new way of looking at the chronological order of the first steps in this period, notably from the example of the exceptional workshop which created the abbey of Saint-Benoit-sur-Loire. Her study of the Corinthian capital and its multiple transformations came about from a greater understanding of the notion of the Renaissance of Antiquity, which recurs throughout the period. Other studies concentrate on the role of sculptural decoration in the buildings, as well as the genesis of certain forms of architectural structure. Much of this research has appeared in the form of monographic studies of important individual monuments. These nineteen studies are principally concerned with the Loire valley, the Berry, the Bourbonnais and Burgundy and they delineate the artistic landscape of those regions which were among the most precocious and the most inventive in the Capetian kingdom.

PAESAGGI E VISIONI

ROMANE DI LUIGI

SALVATORI May 11 2022 Le opere d'arte di Luigi Salvatori non vanno valutate da un punto di vista retinico, per dirla alla Duchamp, si deve prima indagare la personalità

dell'artista da cui hanno origine. Il procedimento pittorico di Salvatori si basa sulla memoria, egli esprime sulla tela le sensazioni ed emozioni che ha ricevuto vedendo un luogo, respirando un'atmosfera. Il compito dell'arte, secondo l'estetica hegeliana, è: <>. La profonda fede religiosa conferisce prima all'uomo Salvatori e poi al pittore serenità d'animo che si rispecchia nei quadri. Ne deriva una pittura che si materializza in configurazioni visionarie; la colorazione dei paesaggi potrebbe portare a considerare una vicinanza all'impressionismo ma, diversamente dal movimento francese, nei quadri di Salvatori non c'è né l'intenzione di cogliere il fenomenico, né tantomeno una tranche de vie. Il tempo di questi paesaggi non è l'istante ma l'eterno. Letture dell'Estetica di Hegel, di testi sacri e una profonda religiosità sono, quindi, le radici della pittura inattuale di Salvatori. Inattuale perché diversa dalle tendenze dominanti improntate al nichilismo, a una eccessiva spettacolarità, a uno scimmiettamento della tecnologia, a una spasmodica ricerca di originalità; Salvatori invece ricerca l'origine profonda dell'esistenza e con una pittura tradizionale coglie l'anima che sottostà alla forma sensibile. Per Salvatori l'arte viene dal cuore dell'uomo puro e fiducioso che avendo gioia nel cuore la rivede specchiata nella gaia bellezza della natura. E allora una luce emana dalle tele, la luce dello spirito.
